## **I. About the Department**

*One-page text to provide following details:*

- *Historical background of Department*
- *Department Highlights in terms of its ranking, courses*
- *About the programme*
- *About Post Graduate Attributes*
- *About the process of course development involving various stakeholders at different stages.*

The Department of English has the same year of inception as the University of Delhi—1922. Lecturers from the constituent colleges of the University contributed to the MA teaching until 1957, when a University Department was constituted and direct appointments made. Since then it has steadily grown and the present faculty strength is twenty three and likely to expand substantially through the next year. From 1970, the Department began functioning from two campuses: the Main Campus in North Delhi, the South Campus at Dhaula Kuan in New Delhi.

The Department oversees undergraduate teaching at the colleges which are affiliated to Delhi University. In addition to the three-year Honors Programme in English, courses are offered in the BA Programme and at Subsidiary levels.

The Department offers instruction at the postgraduate level at both campuses. Courses are taught by members of the faculty. To take forward syllabus revision at the Masters level, the Department appointed two Joint Convenors and set up a range of course-specific subcommittees within the Department Council. The draft syllabus was reviewed by two External Experts. It was displayed on the departmental website, along with a feedback-mechanism for use by college teachers, alumni, current students, and other stakeholders. Feedback obtained was shared with the subcommittees and convenors, as were the report of the examiners, and courses were revised in the light of suggestions received.

## **II. Introduction to CBCS (Choice Based Credit System)**

### **Choice Based Credit System**

The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill-based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. Grading system provides uniformity in the evaluation and computation of the Cumulative Grade Point Average (CGPA) based on student's performance in examinations which enables the student to move across institutions of higher learning. The uniformity in evaluation system also enables the potential employers in assessing the performance of the candidates.

While each of these events can be seen as singular the readings will highlight continuities and disjunctions within and amongst the larger structures of violence and war.

The literary and critical readings deal with themes such as trauma, exile, the idea of the refugee, borders, and the nation-state.

**Course Learning Outcomes:**

Students will acquire a sense of the ways in which violence is represented and remembered in specific contexts and across times. And they will gain insights into the theoretical as well as social aspects of violent events and how they are commemorated.
